Abstracts

IT service management as a service (ITSMaaS) is a term for the idea that companies can outsource their IT services rather than maintaining them in-house. With ITSM, companies can decrease costs and free up staff, while getting quality IT service that trades on specialization and economies of scale.

Scope of the Report:

This report studies the IT Management as a Service market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the IT Management as a Service market by product type and applications/end industries.
ITSM allows the company to maintain IT services with lower fixed costs for hardware and labor. Instead, companies often pay per user, per year, for a given IT service. In addition to basic IT diagnostic and repair services, ITSM can also provide other types of services, such as help with virtualization systems, storage assistance and much more.
The global IT Management as a Service market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.
The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.
North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of IT Management as a Service.
