Abstracts

According to our (Global Info Research) latest study, the global Jojoba Oil market size was valued at US\$ million in 2024 and is forecast to a readjusted size of USD million by 2031 with a CAGR of %during review period.

Jojoba oil (pronounced ho-HO-ba) is the liquid produced in the seed of the Simmondsia chinensis (Jojoba) plant, a shrub, which is native to southern Arizona, southern California, and northwestern Mexico. The oil makes up approximately 50% of the jojoba seed by weight. The terms 'jojoba oil' and 'jojoba wax' are often used interchangeably because the wax visually appears to be a mobile oil, but as a wax it is composed almost entirely (~97%) of mono-esters of long-chain fatty acids and alcohols, accompanied by only a tiny fraction of triglyceride esters.

In North America region, United States is the largest manufacture region with about 40% revenue market share. Mexico is follower with about 34% revenue market share.

The main manufacturers are Desert Whale, Purcell Jojoba, Eco Oil Argentina, La Ronna Jojoba, Jojoba Israel, Provital Group etc. Eco Oil Argentina is the largest manufacturer with about 8% revenue market share in North America.
