According to our (Global Info Research) latest study, the global Kitchen Towels market size was valued at US\$ 4071 million in 2024 and is forecast to a readjusted size of USD 11870 million by 2031 with a CAGR of 16.5% during review period.

Kitchen towels are cleaning tools specially designed for kitchen environments. They are mainly made of textile fibers, with a terry or cut terry surface, and have good moisture absorption and durability. They are usually used for wiping tabletops, cleaning utensils, wiping food ingredients and many other kitchen cleaning tasks.

As consumers' health awareness increases, kitchen towels with antibacterial and environmentally friendly functions have become a new growth point. At the same time, with the popularization of Internet shopping, more and more consumers tend to buy kitchen towels through e-commerce platforms. The sales share of online sales channels has increased year by year, becoming an important growth point in the kitchen towel market.

This report is a detailed and comprehensive analysis for global Kitchen Towels market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:
