According to our (Global Info Research) latest study, the global Landscaping and Gardening Services market size was valued at USD 311730 million in 2023 and is forecast to a readjusted size of USD 439340 million by 2030 with a CAGR of 5.0% during review period.

Landscaping and Gardening Services are services that involve the art and technology of landscape and garden project planning, construction and landscape management, and maintenance and gardening; for garden aesthetics, human enjoyment and safety, and ecosystem-plant community sustainability.

Gardening ranges in scale from fruit orchards, to long boulevard plantings with one or more different types of shrubs, trees, and herbaceous plants, to residential yards including lawns and foundation plantings, to plants in large or small containers grown inside or outside. Gardening may be very specialized, with only one type of plant grown, or involve a large number of different plants termed mixed plantings. It involves an active participation in the growing of plants, and tends to be labor-intensive differentiating it from farming or forestry.
