Abstracts

Landscaping services refer to any service that modifies the visible features of an area of land, including: living elements, natural elements and abstract elements.

SCOPE OF THE REPORT:

This report studies the Landscaping Services market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Landscaping Services market by product type and applications/end industries.

The Landscaping Services industry alters, maintains or enhances the visible components of land and property. Demand for industry services is dependent on the health of the housing and property markets, both of which have grown steadily over the past five years. Additionally, since landscaping services are often discretionary, industry demand is dependent on levels of per capita disposable income. The industry also relies on demand from the high-income demographic, which generates a healthy portion of its market, as well as from institutional and commercial clients that result in higher per-service revenue.

The Landscaping Services industry is broadly distributed according to the regional share of population and households, but with some allowance being made for soil types, climates and seasons. Soil types and climates influence the type of garden vegetation that can be planted and the frequency of maintenance needed.

The global Landscaping Services market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Landscaping Services.

Europe also play important roles in global market, with market size of xx million USD in 2017 and will be xx million USD in 2023, with a CAGR of xx%.
