Abstracts

According to our (Global Info Research) latest study, the global Large Language Model(LLM) market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

Large Language Model refers to a model with a large capacity for deep learning tasks, usually with a large number of parameters and complex architecture. The Large Language Model has better versatility, accuracy, and efficiency. It can learn on large data sets through pre-training or other methods, and then efficiently handle complex tasks such as computer vision and natural language processing through fine-tuning.

This report is a detailed and comprehensive analysis for global Large Language Model(LLM) market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:

Global Large Language Model(LLM) market size and forecasts, in consumption value ($ Million), 2018-2029

Global Large Language Model(LLM) market size and forecasts by region and country, in consumption value ($ Million), 2018-2029

Global Large Language Model(LLM) market size and forecasts, by Type and by Application, in consumption value ($ Million), 2018-2029

Global Large Language Model(LLM) market shares of main players, in revenue ($ Million), 2018-2023

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Large Language Model(LLM)

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Large Language Model(LLM) market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Meta, AI21 Labs, Tencent, Yandex and DeepMind, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Market segmentation

Large Language Model(LLM) market is split by Type and by Application. For the period 2018-2029, the growth among segments provide accurate calculations and forecasts for consumption value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
