Abstracts

Last mile delivery software provides features for businesses to manage and streamline deliveries from the warehouse to the customer's front door. Last mile delivery software performs this task through route optimization, advanced dispatching, customer alerts, proof of delivery, and delivery analytics. With all these features in place, businesses can speed up delivery times as well as stay in constant communication with customers on the status of their deliveries. Last mile delivery software is mostly used by dispatchers and drivers to stay in communication and provide efficient deliveries to customers. While last mile delivery software is similar in many ways to courier software, the main differentiator is that last mile delivery software focuses solely on the delivery process while courier software can focus on back office and other operations involved in receiving and delivering.

According to our (Global Info Research) latest study, the global Last Mile Delivery Software market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

This report is a detailed and comprehensive analysis for global Last Mile Delivery Software market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:

Global Last Mile Delivery Software market size and forecasts, in consumption value ($ Million), 2018-2029

Global Last Mile Delivery Software market size and forecasts by region and country, in consumption value ($ Million), 2018-2029

Global Last Mile Delivery Software market size and forecasts, by Type and by Application, in consumption value ($ Million), 2018-2029

Global Last Mile Delivery Software market shares of main players, in revenue ($ Million), 2018-2023

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Last Mile Delivery Software

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Last Mile Delivery Software market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Jungleworks, Onfleet, LogiNext, Shipsy and Scurri, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Market segmentation

Last Mile Delivery Software market is split by Type and by Application. For the period 2018-2029, the growth among segments provide accurate calculations and forecasts for consumption value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
