Abstracts

According to our (Global Info Research) latest study, the global Lease Abstraction Service market size was valued at US\$ 859 million in 2025 and is forecast to a readjusted size of US\$ 1394 million by 2032 with a CAGR of 7.0% during review period.

Lease abstraction service refers to the outsourced service provided by third-party professional service providers to read, identify, extract, summarize, standardize, and structure key legal, financial, and operational terms of lease contracts and related documents, including those for commercial real estate, corporate leases, retail stores, office buildings, industrial warehousing, equipment leasing, and other corporate leases, according to the client's specified fields for lease management, lease accounting, asset management, due diligence, or system migration.

From a demand perspective, industry growth comes from three core sources. First, lease accounting standards such as ASC 842, IFRS 16, and GASB 87 have elevated lease contract data from operational records to fields required for financial statements and audits, significantly increasing enterprises' requirements for data integrity, traceability, and consistency. Secondly, commercial real estate asset transactions, loan underwriting, REIT mergers and acquisitions, retail store network restructuring, office portfolio optimization, and warehousing and logistics leasing expansion continue to generate large-scale abstraction demands. Thirdly, the replacement and migration of systems such as MRI, Yardi, Visual Lease, Lucernex, and Tango bring about demands for re-reading historical lease documents, field mapping, template unification, and quality review.

This report is a detailed and comprehensive analysis for global Lease Abstraction

Service market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Lease Abstraction Service market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Lease Abstraction Service market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Lease Abstraction Service market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Lease Abstraction Service market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Lease Abstraction Service

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Lease Abstraction Service market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Deloitte, CBRE Group, Inc., JLL, Accenture, MRI Software LLC, Accruent, LLC, SitusAMC, PwC, Colliers, RE BackOffice Inc., etc.

This report also provides key insights about market drivers, restraints, opportunities,

new product launches or approvals.

Market segmentation

Lease Abstraction Service market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application.
