## Abstracts

The global LED Lawn Light market size is expected to reach \$ 1722 million by 2032, rising at a market growth of 5.1% CAGR during the forecast period (2026-2032). LED lawn light is a lighting facility, mainly used for lighting around lawns, and is also an important landscape facility. With its unique design and soft lighting, it adds safety and beauty to the urban green space landscape. It is easy to install and highly decorative. It can be used in lawn greening landscape areas in parks, garden villas, pedestrian streets, parking lots, squares and other public places. In 2025, global LED Lawn Light production reached approximately 65,167 k units, with an average global market price of around 18 US\$/Unit. The production capacity of LED Lawn Light reaches 81,500 k units, and the industry's gross profit margin is approximately between 30% and 45%. The rapid development of LED lawn lights is driven by multiple factors: First, the continuous strengthening of energy conservation and environmental protection policies, such as the 'dual carbon' target and the promotion of green lighting, has made high-efficiency, low-emission LED and solar energy technologies the preferred choice; second, the accelerated construction of urban landscape lighting and smart gardens has significantly increased the demand for outdoor lighting that combines functionality and aesthetics; third, the improvement of residents' quality of life has increased the acceptance and willingness to consume intelligent and personalized LED lawn lights in private courtyards and high-end communities; and fourth, technological progress and cost reduction, such as improved LED chip efficiency, optimized performance of solar cells and lithium batteries, and the popularization of intelligent control, have jointly promoted product performance upgrades and market penetration. This report studies the global LED Lawn Light production, demand, key manufacturers, and key regions. This report is a detailed and comprehensive analysis of the world market for LED Lawn Light and provides market size (US\$ million) and Year-over-Year (YoY) Growth,
