Market Drivers:

D1: Digital Transformation

The shift towards digital content is a major driver for the adoption of LASS. Libraries are digitizing their collections to provide easier access to information, reduce physical storage requirements, and cater to the increasing demand for digital resources. LASS enable libraries to manage these digital resources efficiently, making it easier for patrons to find and access information

D2: Enhanced User Experience

The modern library user expects a seamless, convenient, and personalized experience, akin to that provided by commercial online services. LASS vendors are responding by developing user-friendly interfaces, mobile applications, and self-service options that improve user satisfaction and engagement.

D3: Growth of E-Learning

The rise of e-learning platforms and online education has increased the demand for digital library resources and services. LASS facilitate the integration of library resources with e-learning systems, enabling libraries to support the learning and research needs of students and educators in virtual environments.
