Abstracts

The global Lid Placing Machine market size is expected to reach \$ 4110 million by 2032, rising at a market growth of 7.1% CAGR during the forecast period (2026-2032).

Lid placing machines are automated packaging equipment designed to accurately position and place lids or covers onto containers prior to sealing, closing, or downstream processing. They are widely used in food and beverage packaging, dairy products, ready-to-eat meals, pharmaceuticals, chemicals, and household goods. In 2025, the average global unit price of lid placing machines is approximately US\$42,000 per unit, with global annual sales volume and production both estimated at around 0.058 million units. The industry typically maintains a gross margin range of 30%–45%, driven by mechanical precision, motion control systems, adaptability to different lid formats, automation integration level, and after-sales service value. The supply chain includes upstream components such as motors, sensors, pneumatic systems, PLCs, conveyors, frames, and safety components; midstream manufacturers focus on mechanical design, control system integration, assembly, debugging, and factory acceptance testing; downstream users include packaging line integrators, food and beverage manufacturers, pharmaceutical companies, chemical producers, and contract packers.

The lid placing machine market is driven by the continued automation of packaging lines and increasing demand for high-speed, consistent container handling across food, pharmaceutical, and consumer goods industries. Growth is supported by flexible machine designs capable of handling multiple lid sizes and container formats. Competitive differentiation is shifting toward changeover efficiency, compact footprint, integration with upstream filling systems, and reliability under continuous operation.

This report studies the global Lid Placing Machine production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Lid Placing Machine and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Lid Placing Machine that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Lid Placing Machine total production and demand, 2021-2032, (K Units)

Global Lid Placing Machine total production value, 2021-2032, (USD Million)

Global Lid Placing Machine production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (K Units), (based on production site)

Global Lid Placing Machine consumption by region & country, CAGR, 2021-2032 & (K Units)

U.S. VS China: Lid Placing Machine domestic production, consumption, key domestic manufacturers and share

Global Lid Placing Machine production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (K Units)

Global Lid Placing Machine production by Type, production, value, CAGR, 2021-2032, (USD Million) & (K Units)

Global Lid Placing Machine production by Application, production, value, CAGR, 2021-2032, (USD Million) & (K Units)

This report profiles key players in the global Lid Placing Machine market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include IMA Group, Krones, Syntegon, Tetra Pak, Marchesini Group, OPTIMA Packaging Group, GEA Group, Uhlmann, Robert Bosch Packaging Technology, ProMach, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Lid Placing Machine market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), volume (production, consumption) & (K Units) and average price (US\$/Unit) by manufacturer, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.

Global Lid Placing Machine Market, By Region:

United States

China

Europe

Japan

South Korea

ASEAN

India

Rest of World

Global Lid Placing Machine Market, Segmentation by Type:

Flat Lid

Snap-On Lid

Screw Cap

Global Lid Placing Machine Market, Segmentation by Operating Mode:

Fully Automatic

Semi-Automatic

Global Lid Placing Machine Market, Segmentation by Speed Capacity:

Low-Speed

Medium-Speed

High-Speed

Global Lid Placing Machine Market, Segmentation by Application:

Food & Beverage

Pharmaceutical

Chemical

Personal Care & Household

Others

Companies Profiled:

IMA Group

Krones

Syntegon

Tetra Pak

Marchesini Group

OPTIMA Packaging Group

GEA Group

Uhlmann

Robert Bosch Packaging Technology

ProMach

Barry-Wehmiller

Coesia

Serac Group

Sidel

KHS Group

Key Questions Answered:

1. How big is the global Lid Placing Machine market?
2. What is the demand of the global Lid Placing Machine market?
3. What is the year over year growth of the global Lid Placing Machine market?
4. What is the production and production value of the global Lid Placing Machine market?
5. Who are the key producers in the global Lid Placing Machine market?
6. What are the growth factors driving the market demand?

I would like to order

Product name: Global Lid Placing Machine Supply, Demand and Key Producers, 2026-2032

Product link: <https://marketpublishers.com/r/GD6C04650461EN.html>

Price: US\$ 4,480.00 (Single User License / Electronic Delivery)
