## Abstracts

A Controlled Substance Ordering System (CSOS) is a form of digital identity issued by the Drug Enforcement Administration's CSOS Certification Authority, allowing electronic ordering of controlled substances under Schedule I, II, III, and IV. The CSOS certificate is the digital equivalent of identity information in the DEA Form-222. The Life Sciences Controlled Substance Ordering System Market mainly caters to individual buyers and it is a mandatory requirement for ordering Schedule I and Schedule II drugs. The CSOS certificate enables the power of attorneys and DEA registrants to order controlled substances electronically by providing identification and authentication details through digital signatures. While the paper DEA form-222 is still technically allowed, the CSOS certificate is the only way Schedule I and II drugs can be ordered today.
