Lithium Battery Snow Sweeper is a type of snowplowing equipment that utilizes lithium-ion batteries as a power source, which is environmentally friendly, lightweight, and easy to operate. Lithium-ion snow plows utilize the power provided by an internal engine (usually powered by a lithium-ion battery) to remove snow from the road by rotating components such as brushes or propellers. Its internal connector plays a key role in the electrical system, responsible for connecting the engine control system, sensors, and other key electronic components to ensure the snowplow's proper operation.
