Abstracts

Lotion spray, which presents lotion in the form of spray, can reduce secondary pollution in the use of skin care products. By spraying on the face and body, a protective film is formed on the skin, and at the same time, it also isolates the damage to the skin caused by pollution. The lotion spray has the functions of calming and soothing, moisturizing and nourishing, balancing oil control, lasting moisturizing, anti-itching, anti-bacterial and anti-oxidation.

This report studies the global Lotion Spray production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Lotion Spray, and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2021 as the base year. This report explores demand trends and competition, as well as details the characteristics of Lotion Spray that contribute to its increasing demand across many markets.

The global Lotion Spray market size is expected to reach \$ million by 2028, rising at a market growth of % CAGR during the forecast period (2022-2028).

Highlights and key features of the study
