Abstracts

The global Luffing Jib Tower Cranes market size is expected to reach \$ 225 million by 2032, rising at a market growth of 1.4% CAGR during the forecast period (2026-2032).

This report studies the Luffing Jib Tower Cranes market. Luffing jib tower cranes, which are a type of top-slewing crane, have an angled rather than horizontal jib. Unlike other tower cranes which have a trolley that controls the lateral movement of the load, luffing jib cranes move their load by changing the angle of the jib. The cranes are utilized primarily in urban areas where space is constrained or in situations where several cranes are installed close together.

Global Luffing Jib Tower Cranes key players include Zoomlion, Liebherr, SCM, Fushun Yongmao, XCMG, etc. Global top five manufacturers hold a share about 75%. China is the largest market, with a share about 65%, followed by Europe, with a share about 30 percent. In terms of product, Max. Load Capacity Below 30t is the largest segment, with a share about 80%. And in terms of application, the largest application is High Rise Buildings, followed by Bridge Building, etc.

This report studies the global Luffing Jib Tower Cranes production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Luffing Jib Tower Cranes and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year.
