Abstracts

Luminaire is able to provide a light source apparatus and converts electrical energy into electromagnetic radiation, including LED, LFL, CFL, HID, Halogen and Incandescent Luminaire, etc. And it can be used for residential, office, shop, and hospitality, industrial, outdoor and so on.

Scope of the Report:

This report focuses on the Luminaire in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. For industry structure analysis, the luminaire industry is fragmented. A variety of manufacturers ranging from large multinational corporations to small privately owned companies compete in this industry. The top ten producers account for about 40% of the revenue market.

Regionally, China is the biggest production area of luminaire.

China occupied 35% of the production market in 2015. It is followed by North America and EU, which respectively have around 21% and 18% of the global total industry.

Other countries have a small amount of production. Geographically, China was also the largest consumption market in the world, which took about 30% of the global consumption volume in 2015. EU shared 17% of global total.

The worldwide market for Luminaire is expected to grow at a CAGR of roughly 2.7% over the next five years, will reach 76900 million US\$ in 2023, from 65400 million US\$ in 2017, according to a new GIR (Global Info Research) study.
