## Abstracts

According to our (Global Info Research) latest study, the global Luxury Bathrobes market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

A bathrobe, dressing gown or morning gown is a robe, a loose-fitting outer garment, which may be worn by men or women. A dressing gown may be worn over nightwear or other clothing, or with nothing underneath. Dressing gowns are typically worn around the house and bathrobes may sometimes be worn after a body wash or around a pool. They may be worn for warmth, as a convenient covering over nightwear when not being in bed, or as a form of lingerie. A dressing gown or a housecoat is a loose, open-fronted gown closed with a fabric belt that is put on over nightwear on rising from bed, or, less commonly today, worn over some day clothes when partially dressed or undressed in the morning or evening (for example, over a man's shirt and trousers without jacket and tie). A bathrobe is a dressing gown made from towelling or other absorbent fabric, and may be donned while the wearer's body is wet, serving both as a towel and a body covering.
