The luxury dog bed is a miniature sofa specially designed for pet dogs, which can provide pets with a comfortable resting place, and at the same time can well adapt to the home decoration style.

JD's "China's Pet Health Consumption White Paper" shows that China is expected to have 13.09 million pets entering middle-aged and old age in 2023, and it is expected to face "pet aging" in the next few years. Changes in the age structure of pets will further bring about the development of the pet medical industry. Data from the '2022 China Pet Medical Industry White Paper' jointly compiled by the National Veterinary Drug Industry Technology Innovation Alliance, China Veterinary Drug Association, China Veterinary Medical Association, iCHONG and other parties show that in terms of market size, the size of China's pet medical market is approximately RMB 67.5 billion, accounting for approximately 22.5% of the entire pet industry. In terms of the number of hospitals, single hospitals (1) account for 49.9%, and 2-5 hospitals account for 28.9%. Single hospitals are still the mainstream of the pet diagnosis and treatment institution market; chain pet hospitals (5 or more) account for 28.9%. The proportion is approximately 21.2%, and the proportion in 2021 will be 20.1%. In terms of hospital operating time, approximately 73% of pet hospitals have been operating for less than 5 years, and approximately 11% of pet hospitals have been in business for more than 10 years. From the perspective of hospital turnover, nearly 40% of hospitals have a year-on-year increase in annual turnover, with the growth rate mainly within 680%.
