## Abstracts

According to our (Global Info Research) latest study, the global Luxury Wooden Furniture market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

As a branch of the furniture industry, the luxury wooden furniture industry has also achieved rapid development with the continuous updating of production technology, the continuous increase of varieties, the gradual formation of specialized production and the continuous improvement of management level. With the weakening of the impact of the epidemic, the recovery of the economy and life, and people's continuous pursuit of high-quality life, the market prospect of luxury furniture products is broad.

From a global perspective, the strong luxury wooden furniture companies in the market are mainly located in Europe, America and Japan. Most of these enterprises have branches in China, occupying the market of Chinese wooden furniture, especially high-end products. Although some well-known professional luxury wooden furniture companies have emerged in China in recent years, compared with multinational giants, there is still a big gap in design and research and development, and the brand competitiveness is significantly weaker. With the improvement of brand awareness and comprehensive strength of Chinese luxury wooden furniture enterprises, more powerful enterprises will emerge in the industry in the future and occupy a place in the international market.

Luxury wooden furniture manufacturing refers to all kinds of furniture made of natural rare wood and wood-based panels as the main materials, together with other

accessories (such as paint, veneer materials, glass, hardware accessories, etc.).

This report is a detailed and comprehensive analysis for global Luxury Wooden Furniture market.
