## Abstracts

The global M&A Advisory market size is expected to reach \$ 6143 million by 2032, rising at a market growth of 7.0% CAGR during the forecast period (2026-2032). M&A Advisory is a professional financial service that supports companies through mergers, acquisitions, divestitures, and strategic transactions. It covers target identification, valuation analysis, deal structuring, negotiation support, and transaction execution. Unlike pure financial consulting, M&A advisory combines strategic insight with deep industry knowledge and capital market expertise to help clients achieve growth, consolidation, or restructuring objectives. As industries face technological disruption, consolidation pressure, and globalization, M&A advisory services have become an essential tool for companies seeking scale expansion, portfolio optimization, and long-term value creation. The average gross margin in this industry reached 79.26%.

In the upstream supply chain, M&A advisory relies on financial data platforms, valuation models, legal and accounting frameworks, and regulatory intelligence. Key upstream suppliers include Bloomberg for market and transaction data, Refinitiv for deal databases and analytics, and International Financial Reporting Standards for financial reporting consistency. These inputs underpin accurate valuation and risk assessment. Midstream advisory firms focus on strategy formulation, due diligence coordination, financial modeling, and negotiation execution. Downstream, M&A advisory services are used by corporate clients and financial sponsors such as Siemens, Alibaba Group, and Blackstone, supporting strategic acquisitions, divestments, and investment transactions. Continued industry consolidation and capital reallocation drive sustained demand for M&A advisory services.

This report studies the global M&A Advisory demand, key companies, and key regions. This report is a detailed and comprehensive analysis of the world market for M&A Advisory, and provides market size (US\$ million) and Year-over-Year (YoY) growth,

considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of M&A Advisory that contribute to its increasing demand across many markets.
