Abstracts

The global Magnetic Sorting Machine market size is expected to reach \$ 1283 million by 2032, rising at a market growth of 4.7% CAGR during the forecast period (2026-2032).

Magnetic sorting machine is an industrial equipment that utilizes the magnetic differences of different components in materials to achieve separation. It generates a magnetic field through permanent magnets or electromagnetic systems, causing magnetic or weak magnetic particles to be adsorbed or deflected under the action of magnetic force, thereby separating from non-magnetic materials and achieving the purpose of mineral processing, purification or recovery. It is widely used in mining, metallurgy, building materials, environmental protection and resource recovery fields. In 2025, global Magnetic Sorting Machine production reached approximately 10,256 Units, with an average global market price of around K US\$ 87.25 per unit.

The overall magnetic sorting machine market is in a stable growth stage, driven mainly by the continuous promotion of mining, the expansion of renewable resource recycling, and the improvement of environmental separation requirements. Basic minerals such as iron ore and manganese ore are still the core application scenarios, while emerging fields such as scrap steel recycling and industrial solid waste treatment have become important sources of growth; In terms of technological development, the industry is upgrading towards high gradient magnetic separation, permanent magnet energy-saving, and intelligent control to improve sorting efficiency and reduce operating costs; The regional markets are most concentrated in the Asia Pacific region, especially in China, while the European and American markets focus more on high-end equipment and system integration solutions. Overall, the magnetic separator industry presents a development pattern of 'demand rigidity and stability+application scenario expansion+continuous technological upgrading', belonging to a mature but still

structurally growing industrial equipment market.
