Abstracts

MALE means medium-altitude long-endurance. Unmanned aerial system (UAV) flight training and simulation can be defined as a simulation of the operation of a real-world system or process related with UAV flight training. These systems simplify pilots to train in an artificial environment that prepare them to obtain skillsets required to gain hands-on experience for real-time situations without the risks associated with actual flights. Beside the MALE UAV, there also should be HALE and LALE UVA.

SCOPE OF THE REPORT:

This report studies the MALE UAV Flight Training and Simulation market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the MALE UAV Flight Training and Simulation market by product type and applications/end industries.

These systems facilitate pilots to train in an artificial environment that enables them to obtain skillsets required to gain hands-on experience for real-time situations without the risks associated with actual flights.

Rise in need for virtual simulation solutions, growth in need for commercial drone market, and increased application areas for drones drive the global UAV flight training and simulation market. However, increased adoption of automated UAVs, lack of awareness among end-users, and limited forward field-of-view impedes the market growth. Supportive regulatory framework offers a major opportunity for market expansion.

The global MALE UAV Flight Training and Simulation market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR

of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of MALE UAV Flight Training and Simulation.
