Abstracts

According to our (Global Info Research) latest study, the global Managed Communication Services market size was valued at US$ million in 2024 and is forecast to a readjusted size of USD million by 2031 with a CAGR of %during review period.

Managed Communications Services Span Email, Unified Communications and Voice over IP (VoIP) and Can Be Deployed Locally and Through the Cloud. Communications Are Important to Businesses, and Unreliable and Outdated Communications Technology Can Lead to Poor Communication Throughout the Organization and Affect Overall Operations. Because Communications Systems Are Complex, Managing Them In-house Alone Can Be Overwhelming, Which is Where Hosted Communications Services Can Step in and Streamline the Process. Companies Are Currently Adopting Managed Communications Services, Which Allow Them to Excel in an Increasingly Competitive Environment and Give Them a Cost Advantage in Maintaining Their Technology Infrastructure.

The Global Mobile Economy Development Report 2023 released by GSMA Intelligence pointed out that by the end of 2022, the number of global mobile users would exceed 5.4 billion. The mobile ecosystem supports 16 million jobs directly and 12 million jobs indirectly.

According to our Communications Research Centre, in 2022, the global communication equipment was valued at US$ 100 billion. The U.S. and China are powerhouses in the manufacture of communications equipment. According to data from the Ministry of Industry and Information Technology of China, the cumulative revenue of telecommunications services in 2022 was ?1.58 trillion, an increase of 8% over the

previous year. The total amount of telecommunications business calculated at the price of the previous year reached ?1.75 trillion, a year-on-year increase of 21.3%. In the same year, the fixed Internet broadband access business revenue was ?240.2 billion, an increase of 7.1% over the previous year, and its proportion in the telecommunications business revenue decreased from 15.3% in the previous year to 15.2%, driving the telecommunications business revenue to increase by 1.1 percentage points.

This report is a detailed and comprehensive analysis for global Managed Communication Services market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Managed Communication Services market size and forecasts, in consumption value ($ Million), 2020-2031

Global Managed Communication Services market size and forecasts by region and country, in consumption value ($ Million), 2020-2031

Global Managed Communication Services market size and forecasts, by Type and by Application, in consumption value ($ Million), 2020-2031

Global Managed Communication Services market shares of main players, in revenue ($ Million), 2020-2025

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Managed Communication Services

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace
