## Abstracts

According to our (Global Info Research) latest study, the global Manganese Briquettes market size was valued at US\$ 384 million in 2025 and is forecast to a readjusted size of US\$ 523 million by 2032 with a CAGR of 4.6% during review period.

In 2025, global Manganese Briquettes production reached approximately 160.5 k tons, with an average global market price of around US\$2,324 per ton. Manganese briquettes are compacted, spherical alloy products primarily composed of manganese.

Manufactured from manganese ore through smelting and processing, they enhance steel strength, toughness, and corrosion resistance, widely used in steelmaking and foundry industries.

The manganese briquettes market is characterized by a demand structure dominated by steelmaking, where manganese's roles in desulfurizing, deoxidizing and alloying create resilient, cyclical consumption tied to infrastructure and manufacturing activity. Supply is concentrated among a few large mining and processing operators, so mine location, beneficiation capacity and logistics costs are primary competitive levers. A clear industry trend is the shift toward lower-carbon, higher-value manganese products as producers respond to "green steel" requirements and seek process improvements; this is being reflected in corporate disclosures and annual reports. Constraints include feedstock grade variability, port and long-haul transport bottlenecks, tightening environmental compliance costs and trade policy uncertainty. Opportunities arise from growth in electric-furnace steel and specialty alloy demand, which favor higher-purity and low-carbon briquettes, and from expanded recycling and near-market processing that can stabilize supply and enhance margins. Competitive advantage will depend on vertical integration, proximity to consumption centers, consistent quality control and

capital investment for decarbonization and modernization.

This report is a detailed and comprehensive analysis for global Manganese Briquettes market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

### **Key Features:**

Global Manganese Briquettes market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Manganese Briquettes market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Manganese Briquettes market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Manganese Briquettes market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/Ton), 2021-2026

### **The Primary Objectives in This Report Are:**

- To determine the size of the total market opportunity of global and key countries
- To assess the growth potential for Manganese Briquettes
- To forecast future growth in each product and end-use market
- To assess competitive factors affecting the marketplace

This report profiles key players in the global Manganese Briquettes market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Chongqing Runji FAR EAST Alloy, Guizhou Songtao Sanhe Manganese, Shanxi Beilun Jubang Innovation Technology, Manganese Metal Company (MMC), Hunan Jinsheng Manganese, Xiangxi Fengda Alloys,

Changsha Research Institute of Mining&Metallurgy, PROMBRICKET, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

## **Market Segmentation**

Manganese Briquettes market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Mn

## Contents

### 1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Manganese Briquettes Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 Mn

## List Of Tables

### LIST OF TABLES

Table 1. Global Manganese Briquettes Consumption Value by Type, (USD Million), 2021 & 2025 & 2032
