A mattress is a soft or semi-hard cushion that provides support and a comfortable sleep. It is usually made of springs, latex, memory foam and other materials. It adapts to the curves of the human body and ensures the quality of sleep. A bed frame is a frame structure that supports the mattress. It is usually made of wood, metal or other materials to ensure that the mattress is stable and provides the necessary height and stability. The mattress and bed frame work together to provide a comfortable sleeping environment.
