Abstracts

According to our (Global Info Research) latest study, the global Merino Crew Socks market size was valued at US$ 345 million in 2025 and is forecast to a readjusted size of US$ 502 million by 2032 with a CAGR of 5.6% during review period.

Merino crew socks are made from premium Merino wool that is soft, comfortable and effective at regulating temperature, keeping you warm in cold weather and cool in hot weather. They also wick moisture away to keep your feet dry, reducing the risk of blisters, and are naturally antibacterial, which helps prevent odor. These socks usually hit mid-calf, making them suitable for everyday wear or outdoor activities.

This report is a detailed and comprehensive analysis for global Merino Crew Socks market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.
