## Abstracts

According to our (Global Info Research) latest study, the global Microgravity Packaging Systems market size was valued at US\$ 322 million in 2025 and is forecast to a readjusted size of US\$ 805 million by 2032 with a CAGR of 13.9% during review period.

Microgravity Packaging Systems refer to specialized containers, pouches, bags, and stowage solutions that are engineered, manufactured, and flight qualified for operation in microgravity environments. These systems address unique microgravity challenges such as fluid slosh, bubble entrapment, particle dispersion, closure reliability under vacuum or vented conditions, and strict volume/mass efficiency for launch. In 2025, global microgravity packaging systems production reached approximately 20,575 unit, with an average global market price of around USD 15,200 per unit. A factory gross profit of USD 3,952 per unit with 26% gross margin. A single line full machine capacity production is around 100 unit per line per year. downstream demand is concentrated in space food, fluid management and pharmaceutical and biotech.. An astronaut aboard a space station uses a vacuum-sealed, valve-controlled pouch to consume liquid nutrition. The packaging prevents liquid from floating, allows controlled suction, and maintains sterility for months. China and USA are leading the market, due to extended activity of commercial space program.

This report is a detailed and comprehensive analysis for global Microgravity Packaging Systems market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market

share estimates of some of the selected leaders for the year 2025, are provided.

#### Key Features:

Global Microgravity Packaging Systems market size and forecasts, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Microgravity Packaging Systems market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Microgravity Packaging Systems market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Microgravity Packaging Systems market shares of main players, shipments in revenue (\$ Million), sales quantity (K Units), and ASP (US\$/Unit), 2021-2026

#### The Primary Objectives in This Report Are:

- To determine the size of the total market opportunity of global and key countries
- To assess the growth potential for Microgravity Packaging Systems
- To forecast future growth in each product and end-use market
- To assess competitive factors affecting the marketplace

This report profiles key players in the global Microgravity Packaging Systems market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Thales Alenia Space (US), Lockheed Martin (US), Boeing (US), Sierra Space (US), Redwire (US), ILC Dover (US), NanoRacks (Voyager Space) (US), SpaceX (US), Axiom Space (US), Space Tango (US), etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

## Market Segmentation

Microgravity Packaging Systems market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

### Market segment by Type

Flexible Pouches

Semi Rigid Trays

Rigid Containers

Soft Storage Bags

Others

### Market segment by Leakage Rate

Zero Leak Certified (

## Contents

### 1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Microgravity Packaging Systems Consumption Value by Type:  
2021 Versus 2025 Versus 2032

1.3.2 Flexible Pouches

1.3.3 Semi Rigid Trays

1.3.4 Rigid Containers

1.3.5 Soft Storage Bags

1.3.6 Others

1.4 Market Analysis by Leakage Rate

1.4.1 Overview: Global Microgravity Packaging Systems Consumption Value by  
Leakage Rate: 2021 Versus 2025 Versus 2032

1.4.2 Zero Leak Certified (
