Abstracts

The global Milled Log Home Packages market size is expected to reach \$ 727 million by 2030, rising at a market growth of 2.6% CAGR during the forecast period (2024-2030).

Manufactured log and timber homes are based on logs that have been shaped with milling machinery. The manufacturing process varies from simply removing bark to milling the log into a variety of profiles that may include interlocking tongues and grooves, corner notches and slots from splines. Some manufacturing processes include manual operations similar to handcrafting.

Milled Log Home Packages are arguably the most recognizable type of residential construction in the world.

This report studies the global Milled Log Home Packages demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Milled Log Home Packages, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2023 as the base year. This report explores demand trends and competition, as well as details the characteristics of Milled Log Home Packages that contribute to its increasing demand across many markets.

Highlights and key features of the study
