A Mobile Heavy-Duty Truck Battery Swapping Station is a movable or rapidly deployable battery replacement facility for electric heavy-duty trucks. Instead of waiting for high-power charging, the truck enters or aligns with the station, the depleted traction battery pack is automatically removed, and a charged battery pack is installed within a few minutes. Compared with a fixed battery swapping station, the 'mobile' type emphasizes truck-mounted, containerized, skid-mounted, modular, or relocatable deployment, suitable for mines, ports, construction sites, steel plants, logistics parks, highways, and temporary fleet operations.
