Abstracts

According to our (Global Info Research) latest study, the global Mobile Marketing Platforms market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

We identifies two types of mobile marketing platforms: (1) Multichannel marketing hubs (MMH) with native mobile marketing capabilities: Offer mobile marketing as part of a broader marketing cloud. These vendors deliver a range of engagement and analytics capabilities for mobile web and mobile applications. They offer native mobile marketing capabilities, but may also partner with third parties to support capabilities around delivery, monetization and measurement. (2) Purpose-built mobile marketing platforms: Enable direct-marketing engagement capabilities including SMS campaign design, delivery and reporting, push-notification and in-app messaging, and mobile-wallet integration. Additionally, these solutions can link to existing marketing platforms, such as email and social marketing. Note that analysts may need to update the market definition as they progress through the research process. You will be explicitly notified of the change(s) should they need to happen
