Abstracts

According to our (Global Info Research) latest study, the global Mobile Phone Rental market size was valued at US\$ 438 million in 2024 and is forecast to a readjusted size of USD 682 million by 2031 with a CAGR of 6.3% during review period.

Mobile phone rental is a commercial service model, which means that rental companies or related institutions rent mobile phones to individual or corporate users. Users pay a certain rental fee within the agreed rental period to obtain the right to use the mobile phone.

Consumers, especially millennials and Gen Z, prefer rental services to avoid high upfront costs of buying new phones. Rental services offer convenient and cost-effective access to the latest models without long-term commitments. Additionally, subscription services that bundle rentals with insurance and repair are becoming more popular, driving market growth. The rapid expansion of mobile networks and the availability of affordable smartphones in emerging markets are increasing mobile device ownership. Consumers in these regions seek convenient and cost-effective ways to access the latest technology, driving the demand for mobile phone rental services. Countries like India, China, and Brazil, with large populations and high mobile penetration rates, are expected to contribute significantly to market growth. The introduction of new technologies such as 5G networks and foldable smartphones creates growth opportunities for the rental market. Rental services can offer access to the latest models and features. The development of innovative rental models, such as subscription-based services and device-as-a-service (DaaS) offerings, also enhances the customer experience and drives market growth.

This report is a detailed and comprehensive analysis for global Mobile Phone Rental

market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Mobile Phone Rental market size and forecasts, in consumption value (\$ Million), 2020-2031

Global Mobile Phone Rental market size and forecasts by region and country, in consumption value (\$ Million), 2020-2031

Global Mobile Phone Rental market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2020-2031

Global Mobile Phone Rental market shares of main players, in revenue (\$ Million), 2020-2025

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Mobile Phone Rental

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Mobile Phone Rental market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Grover, Lendis, Ooodles, Flex IT Rent, Rent the Roo, NTT Docomo, Diffrent Rental, SoftBank Global Rental, Hartford Technology Rental, TripTel, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

Mobile Phone Rental market is split by Type and by Application. For the period 2020-2031, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
