Abstracts

Around 400 million of the two billion unbanked people in the world have some forms of mobile money account. The global remittance revenue generated from digital channels is estimated to be less than 6% of the total but is progressively growing. However, a predominant end-to-end digital scenario is still some time off.

Scope of the Report:

This report studies the Mobile Remittance Service market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Mobile Remittance Service market by product type and applications/end industries.

The growth of the digital remittance market is driven by rise in digitization & automation, reduced remittance cost & transfer time, and growth in adoption of banking & financial services. Furthermore, regulatory initiatives that encourage all financial institutions to become more transparent and nurture richer ecosystems of data & partners supplement the market growth. However, lack of awareness & guidance is a major factor that restrains people from opting for digital remittance transfer mode. Increase in access of financial services such as basic bank accounts among remittance recipients and rise in internet usage offer growth opportunities for the market.

The global Mobile Remittance Service market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.
