Abstracts

According to our (Global Info Research) latest study, the global Mobile Truck Repair Service market size was valued at US\$ 3133 million in 2025 and is forecast to a readjusted size of US\$ 5451 million by 2032 with a CAGR of 8.2% during review period.

Mobile truck repair service refers to a on-site, mobile vehicle maintenance solution where repair technicians carry professional tools, spare parts, diagnostic equipment, and workstations via service trucks/vans to the breakdown location of commercial trucks (semi-trailers, dump trucks, delivery trucks, tractor units, buses, heavy-duty rigs, etc.), instead of requiring trucks to be towed to a fixed brick-and-mortar repair shop.

It targets emergency breakdowns, roadside malfunctions, minor routine maintenance, and light mechanical repairs for heavy commercial vehicles. Core advantages include eliminating towing fees, minimizing vehicle downtime, and providing 24/7 roadside support for fleets, long-haul drivers, logistics companies, and independent truck operators.

North America is the most mature market, supported by large fleets, long-distance trucking, high labor costs, roadside assistance networks, and strong outsourcing of fleet maintenance.

Europe is also a major market, especially in Germany, the UK, France, Italy, the Netherlands and Nordic countries, where cross-border logistics and strict maintenance standards support demand for mobile truck service networks.

Asia-Pacific is the fastest-growing region, driven by China, India, Southeast Asia and

Australia. Growth comes from expanding logistics fleets, construction fleets, mining trucks, e-commerce delivery, and the gradual professionalization of fleet maintenance. However, the market remains more fragmented and price-sensitive than North America and Europe.

The industry is highly fragmented. Major participants include fleet leasing and maintenance companies, truck OEM dealer networks, roadside assistance providers, independent mobile mechanics, tire service chains, and digital repair-dispatch platforms.

This report is a detailed and comprehensive analysis for global Mobile Truck Repair Service market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Mobile Truck Repair Service market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Mobile Truck Repair Service market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Mobile Truck Repair Service market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Mobile Truck Repair Service market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Mobile Truck Repair Service

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Mobile Truck Repair Service market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Penske Truck Leasing, Torque by Ryder, Cox Fleet, Love's Truck Care & Speedco, TA Truck Service, TEN - Transportation Equipment Network, FleetPride, TIP Group, Premier Trailer Leasing, Rush Truck Centers, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

Mobile Truck Repair Service market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
