The global Modern Sporting Rifle market size is expected to reach \$ million by 2029, rising at a market growth of % CAGR during the forecast period (2023-2029).

Modern Sports Rifles are shoulder firearms with long barrels and rifled bores. They are commonly long and require two-hand hold. Popular shooting games using this type of gun are four position small bore, gallery rifle shooting, benchrest shooting, high power rifle (aka Across the Course), biathlon (combination of shooting and cross-country skiing), fullbore target shooting (shooting ranges are at 300- 1200 meters), field target (more popular in UK) and many more. The term “modern sporting rifle” was coined to describe today's very popular semiautomatic rifle designs, including the AR-15 and its offspring. These rifles are used by hunters, competitors, a lot of Americans seeking home-defense guns and by many others who simply enjoy going to the range.
