Abstracts

According to our (Global Info Research) latest study, the global Monoperoxyphthalic Acid market size was valued at US\$ 282 million in 2025 and is forecast to a readjusted size of US\$ 403 million by 2032 with a CAGR of 5.2% during review period.

Monoperoxyphthalic Acid (MPPA) is an aromatic peroxydicarboxylic acid derived from phthalic acid, characterized by a highly reactive peroxide (–O–O–) functional group, making it a strong oxidizing agent widely used in organic synthesis, fine chemicals, and specialty bleaching applications. Its supply chain begins with upstream petrochemical intermediates such as phthalic anhydride (produced from o-xylene or naphthalene oxidation) and hydrogen peroxide, which are reacted under controlled, low-temperature conditions to form MPPA through peroxidation processes. The midstream stage involves stabilization, purification, and formulation (often in diluted or stabilized solutions due to its thermal sensitivity and potential explosiveness), typically handled by specialty chemical manufacturers with expertise in peroxides. Downstream, MPPA is supplied to pharmaceutical intermediates producers, polymer and epoxy processing industries, and laboratory reagent distributors, where it is used for epoxidation, Baeyer–Villiger oxidation, and selective oxidation reactions. The supply chain requires strict safety, cold-chain logistics, and regulatory compliance due to the compound's hazardous and unstable nature. In 2025, global Monoperoxyphthalic Acid output was about 160,000 tons with 200,000 tons of capacity, average prices of USD 1,500–3,500 per ton, and gross margins around 22%.

This report is a detailed and comprehensive analysis for global Monoperoxyphthalic Acid market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing,

this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Monoperoxyphthalic Acid market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Monoperoxyphthalic Acid market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Monoperoxyphthalic Acid market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Monoperoxyphthalic Acid market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/Ton), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Monoperoxyphthalic Acid

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Monoperoxyphthalic Acid market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Arkema (France), Evonik (Germany), Solvay (Belgium), Nouryon (Netherlands), United Initiators (Germany), Pergan (Germany), NOF Corporation (Japan), Anhui Changhe New Material (China), Jiangsu Qiangsheng Chemical (China), Prasol Chemicals (India), etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Monoperoxyphthalic Acid market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Monoperoxyphthalic Acid Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 Unstabilized MPPA

1.3.3 Stabilized MPPA

1.4 Market Analysis by Active Oxygen Content

1.4.1 Overview: Global Monoperoxyphthalic Acid Consumption Value by Active Oxygen Content: 2021 Versus 2025 Versus 2032

1.4.2 >95%

1.4.3 70–95%

1.4.4
