## Abstracts

According to our (Global Info Research) latest study, the global Moto Taxi Service market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

A motorcycle taxi, or cart bike or bike taxi, is a licensed form of transport in some countries. The taxi typically carries one passenger, who rides as the pillion behind the motorcycle operator. Multiple passengers are common in some countries.

Personal transportation in heavily congested cities is becoming a massive problem because of the increasing number of vehicles on roads. This leads to increased vehicular emissions and pollution control, which in turn, has compelled governments to restrict new vehicle purchases. This has resulted in the preference for moto taxi services as they offer various benefits such as affordability, efficiency, and convenience. Moreover, this mode of transport also minimizes travel time and helps curb the increasing traffic.

The Global Info Research report includes an overview of the development of the Moto Taxi Service industry chain, the market status of Passenger (E-hailing, Ride Sharing), Load (E-hailing, Ride Sharing), and key enterprises in developed and developing market, and analysed the cutting-edge technology, patent, hot applications and market trends of Moto Taxi Service.

Regionally, the report analyzes the Moto Taxi Service markets in key regions. North America and Europe are experiencing steady growth, driven by government initiatives and increasing consumer awareness. Asia-Pacific, particularly China, leads the global Moto Taxi Service market, with robust domestic demand, supportive policies, and a

strong manufacturing base.
