Abstracts

According to our (Global Info Research) latest study, the global Motor Sailplanes market size was valued at US\$ 463 million in 2025 and is forecast to a readjusted size of US\$ 776 million by 2032 with a CAGR of 7.8% during review period.

A Motor Sailplane is a high-performance aircraft designed primarily for soaring, equipped with an integrated propulsion system—typically a retractable engine and propeller—that allows it to take off and climb to soaring altitude without the need for a tow plane or winch. Unlike Touring Motor Gliders (TMG), which resemble traditional airplanes, a motor sailplane maintains the extremely long, slender wings and aerodynamic purity of a pure racing sailplane. Once the desired altitude is reached, the engine is shut down and retracted into the fuselage, allowing the pilot to pursue long-distance cross-country flights using only thermal or ridge lift. In the event of losing lift, the engine can be 're-started' in flight (often called a 'sustainer' or 'turbo' configuration) to avoid an off-field landing.

In 2025, global Small Electric Glider production reached approximately 3000 units, and average price was 150000 usd/unit.

This report is a detailed and comprehensive analysis for global Motor Sailplanes market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Motor Sailplanes market size and forecasts, in consumption value (\$ Million), sales quantity (Units), and average selling prices (US\$/Unit), 2021-2032

Global Motor Sailplanes market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Units), and average selling prices (US\$/Unit), 2021-2032

Global Motor Sailplanes market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Units), and average selling prices (US\$/Unit), 2021-2032

Global Motor Sailplanes market shares of main players, shipments in revenue (\$ Million), sales quantity (Units), and ASP (US\$/Unit), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Motor Sailplanes

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Motor Sailplanes market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Alexander Schleicher, Schempp-Hirth, DG Aviation (DG Flugzeugbau), Lange Aviation, Stemme, Jonker Sailplanes, Pipistrel, HPH sailplanes, LAK (Sportine Aviacija), Allstar PZL Glider, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Motor Sailplanes market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Electric

ICE

Hybrid

Market segment by Power

Self-launching

Sustainer

Market segment by Application

Commercial Use

Military Use

Major players covered

Alexander Schleicher

Schempp-Hirth

DG Aviation (DG Flugzeugbau)

Lange Aviation

Stemme

Jonker Sailplanes

Pipistrel

HPH sailplanes

LAK (Sportine Aviacija)

Allstar PZL Glider

Alisport Srl

Aeros

Windward Performance

Market segment by region, regional analysis covers
North America (United States, Canada, and Mexico)
Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)
Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)
South America (Brazil, Argentina, Colombia, and Rest of South America)
Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

The content of the study subjects, includes a total of 15 chapters:

Chapter 1, to describe Motor Sailplanes product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Motor Sailplanes, with price, sales quantity, revenue, and global market share of Motor Sailplanes from 2021 to 2026.

Chapter 3, the Motor Sailplanes competitive situation, sales quantity, revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Motor Sailplanes breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2021 to 2032.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2021 to 2032.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2021 to 2026. and Motor Sailplanes market forecast, by regions, by Type, and by Application, with sales and revenue, from 2027 to 2032.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Motor Sailplanes.

Chapter 14 and 15, to describe Motor Sailplanes sales channel, distributors, customers, research findings and conclusion.
