Abstracts

Motorhomes, commonly also called Recreational Vehicles (RVs), were used as roving homes in their first roles, and not for recreation. Some of the earliest forms of RVs were designed and manufactured in the early 1900s, where the bodies and chassis of large cars and trucks were used as the platform. By 1920, motorhomes became a national fascination in the US, and camping clubs were formed; even though paved roads were rare and most camping sites were inaccessible to vehicles of that size.

Scope of the Report:

This report focuses on the Motorhome in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Motorhomes include automobiles or trailers designed or modified for recreation or pleasure activities such as vacations and camping, both on and off highways. They are a type of self-propelled RVs, which offer complete living accommodation while on the move. Motorhomes are equipped with facilities such as sleeping, kitchen, and bathroom for use during travel and camping. Some of them have sleeping accommodation for two to eight people, and these vehicles are subject to the same registration and licensing as other automobiles.

The worldwide market for Motorhome is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
