Scope of the Report:

This report studies the Moving Services market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Moving Services market by product type and applications/end industries.

In the recent years, there has been a considerable rise in the number of employees traveling abroad. This is mainly affiliated to the global companies sending employees overseas for the completion of short-term and long-term assignments. It has also been observed that the recent relocations were mainly from industries such as the pharmaceuticals, healthcare, energy, and oil and gas. Moreover, relocations can be attributed to factors such as low-cost of living and better quality of living. Owing to factors such as adequate overseas employment and emigration of the US citizens abroad, the market will witness an exponential growth over the years.

In addition, the robust benefits associated with relocations services such as family assistance, spouse/partner support, settling-in services, school assistance, and cultural and language training, will further contribute to the growth of the moving services market.

The global Moving Services market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in

China, also fast growing India and Southeast Asia regions. North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Moving Services.
