According to our (Global Info Research) latest study, the global Myelodysplastic Syndrome (MDS) Drugs market size was valued at USD 1496.4 million in 2023 and is forecast to a readjusted size of USD 2170.3 million by 2030 with a CAGR of 5.5% during review period.

Myelodysplastic syndrome is caused by mutation of one or more genes that control development of blood cells. It is one of the most common malignant hematological diseases that affects five out of every 100,000 people in U.S. annually. An estimated 60,000 people in U.S. live with MDS, and approximately 10,000-15,000 new cases are reported each year. Patients may present with clinical manifestations such as thrombocytopenia, neutropenia, and anemia. Exposure to chemicals (such as pesticides, tobacco, and benzene) and heavy metals (such as mercury and lead) may trigger disease onset.

The global pharmaceutical market is 1475 billion USD in 2022, growing at a CAGR of 5% during the next six years. The pharmaceutical market includes chemical drugs and biological drugs. For biologics is expected to 381 billion USD in 2022. In comparison, the chemical drug market is estimated to increase from 1005 billion in 2018 to 1094 billion U.S. dollars in 2022. The pharmaceutical market factors such as increasing demand for healthcare, technological advancements, and the rising prevalence of chronic diseases, increase in funding from private & government organizations for development of pharmaceutical manufacturing segments and rise in R&D activities for drugs. However, the industry also faces challenges such as stringent regulations, high costs of research and development, and patent expirations. Companies need to continuously innovate and adapt to these challenges to stay competitive in the market

and ensure their products reach patients in need. Additionally, the COVID-19 pandemic has highlighted the importance of vaccine development and supply chain management, further emphasizing the need for pharmaceutical companies to be agile and responsive to emerging public health needs.
