In the aerospace industry, aircraft MRO has become an essential component to ensure that fleets are airworthy and safe to transport passengers. Regular MRO helps to extend the life of airline fleet. MRO companies provide services, such as repairs, inspections, routine checks, and overhaul of aircraft.

SCOPE OF THE REPORT:

This report studies the Narrowbody Aircraft MRO market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Narrowbody Aircraft MRO market by product type and applications/end industries.

Factors, such as aircraft utilization, global fleet size, and air traffic volumes, help increase the demand for aircraft MRO. Based on the type of maintenance, the global narrow-body aircraft MRO market is classified into five segments: airframe, line, engine, component maintenance, and modifications.

Air travel in developing countries is growing, thus, increasing the demand for aircraft maintenance services. Aircraft Maintenance, Repair, Overhaul (MRO) is crucial for sustaining the lifespan of narrowbody aircraft and assuring the crashworthiness of an aircraft. It consists of maintenances, overhauls, routine checks, repairs, and modifications disbursed on narrowbody aircraft and their elements. Many new maintenance and service centers have been set up in numerous countries in recent years. This increases the participation of regional manufacturers and tier-1 suppliers in the field of aircraft MRO. Moreover, the growing international trade between countries has increased the travel frequencies of cargo planes. Thus, it is essential to conduct timely checks or repairs of airplanes to ensure efficient performance and safe air travel.

The global Narrowbody Aircraft MRO market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.
