Abstracts

According to our (Global Info Research) latest study, the global No-code App Builder market size was valued at US\$ 8322 million in 2025 and is forecast to a readjusted size of US\$ 26982 million by 2032 with a CAGR of 18.2% during review period.

No-code App Builder market refers to software platforms that enable users to design, build, deploy, and manage applications without writing traditional programming code. These platforms rely on visual interfaces, drag-and-drop components, configuration rules, and pre-built logic modules to abstract software development complexity. No-code App Builders are widely adopted for web applications, mobile apps, internal business tools, and workflow automation, allowing non-technical users and business teams to rapidly create functional applications.

The No-code App Builder market generally exhibits high gross margins, typically ranging from 70% to 90%, due to its SaaS-based delivery model and strong economies of scale. Key cost components include cloud infrastructure, platform R&D, customer support, and sales and marketing. Vendors with optimized cloud usage, standardized components, and enterprise subscription pricing structures tend to achieve higher and more stable gross margins over time.

Key growth drivers include enterprise digitalization, persistent developer shortages, rising demand for rapid application deployment, and increasing acceptance of citizen development. Competitive differentiation is increasingly driven by platform extensibility, integration ecosystems, governance and security features, and AI-assisted building capabilities. Over the medium term, the No-code App Builder market is expected to expand steadily, with AI-enhanced no-code platforms gradually reshaping how applications are developed across industries.

This report is a detailed and comprehensive analysis for global No-code App Builder market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global No-code App Builder market size and forecasts, in consumption value (\$ Million), 2021-2032

Global No-code App Builder market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global No-code App Builder market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global No-code App Builder market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for No-code App Builder

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global No-code App Builder market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Create.xyz, Glide, Builder.io, Adalo, Softr, Appy Pie, Dify, Airtable, Bubble.io, Quixy, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

No-code App Builder market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Web App Builder

Mobile App Builder

Internal Tool Builder

Workflow / Automation Builder

AI-enabled App Builder

Market segment by Deployment Architecture

Cloud Managed

Private/On-Prem

Edge Deployment

Hybrid/Multi-Cloud

Open Source

Market segment by AI Capability Scope

Single-Function AI Builders

Multi-Modal AI App Builders

Agent-Based AI Builders

Market segment by Application

Large Companies

Small and Medium-sized Enterprises

Market segment by players, this report covers

Create.xyz

Glide

Builder.io

Adalo

Softr

Appy Pie

Dify

Airtable

Bubble.io

Quixy

WeWeb

ToolJet

DronaHQ

Superblocks

Market segment by regions, regional analysis covers

North America (United States, Canada and Mexico)

Europe (Germany, France, UK, Russia, Italy and Rest of Europe)

Asia-Pacific (China, Japan, South Korea, India, Southeast Asia and Rest of Asia-Pacific)

South America (Brazil, Rest of South America)

Middle East & Africa (Turkey, Saudi Arabia, UAE, Rest of Middle East & Africa)

The content of the study subjects, includes a total of 13 chapters:

Chapter 1, to describe No-code App Builder product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top players of No-code App Builder, with revenue, gross margin, and global market share of No-code App Builder from 2021 to 2026.

Chapter 3, the No-code App Builder competitive situation, revenue, and global market share of top players are analyzed emphatically by landscape contrast.

Chapter 4 and 5, to segment the market size by Type and by Application, with consumption value and growth rate by Type, by Application, from 2021 to 2032.

Chapter 6, 7, 8, 9, and 10, to break the market size data at the country level, with revenue and market share for key countries in the world, from 2021 to 2026. and No-code App Builder market forecast, by regions, by Type and by Application, with consumption value, from 2027 to 2032.

Chapter 11, market dynamics, drivers, restraints, trends, Porters Five Forces analysis.

Chapter 12, the key raw materials and key suppliers, and industry chain of No-code App Builder.

Chapter 13, to describe No-code App Builder research findings and conclusion.
