SCOPE OF THE REPORT:

This report focuses on the Aluminum Foil Packaging in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Currently, the world's leading consumer of aluminum foil packaging market in Europe and North America, while the aluminum foil packaging consumption in China and Asia is far below the level of the above areas, especially in China, in all aluminum foil consumption, packaging materials only about 25%.

But China is the world's fastest growing area as to consumption of aluminum foil packaging, in recent years, compound annual growth rate remained at around 13%, which increased significantly in the areas of food and pharmaceutical packaging. But with the upstream raw material prices continue to decline, resulting in most of the manufacturers of aluminum foil gross margin decreased to some extent.

Currently, as to the aluminum foil industrial structure, the aluminum industry structure needs to adjust right now, while subject to the lack of technology in China, the current production of aluminum foil products in the region is difficult to enter the national high-end market, Technology directly affects the pace of Chinese products to enter the international market.
