SCOPE OF THE REPORT:

This report focuses on the Amphibious Land Craft in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The Americas is the largest defense consumption market, accounting for 52.78% of global deals in 2016. Growth in the maritime budget is in response to marine threats such as smuggling, illegal immigration, human trafficking, and cargo thefts. Also, the 9/11 terrorist attacks has prompted Americans to enforce the law to ensure smooth commercial activities by sea.

EMEA is the third largest consumption market, account for 13.89% in 2016. The growth in this region is mainly from the Middle East. The majority of international trade in Europe is seaborne, and this route has become one of the most-effective channels for economic development for the region. However, 104,049 people crossed the European border illegally in 2010. Similarly, the Middle East and Africa are suffering from huge losses due to piracy in the Gulf of Aden, the Suez Canal, the Red Sea, and the Arabian Sea.

APAC has been the second largest consumption market, accounting for 33.33% in 2016. China, South Korea, and Japan are continuously increasing their defense budgets to enhance national security amid rising political tensions in these countries.

Besides, India is another important consumption market.

The worldwide market for Amphibious Land Craft is expected to grow at a CAGR of roughly 12.0% over the next five years, will reach 1960 million US\$ in 2023, from 1000 million US\$ in 2017, according to a new GIR (Global Info Research) study.
