## Abstracts

An all-terrain vehicle (ATV), also known as a quad, quad bike, three-wheeler, four-wheeler or quadricycle as defined by the American National Standards Institute (ANSI) is a vehicle that travels on low-pressure tires, with a seat that is straddled by the operator, along with handlebars for steering control. As the name implies, it is designed to handle a wider variety of terrain than most other vehicles. Although it is a street-legal vehicle in some countries, it is not street-legal within most states and provinces of Australia, the United States or Canada.

### SCOPE OF THE REPORT:

This report focuses on the ATVs+2/3 Wheeler in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. India, the most important two and three wheeler market, has overtaken China to emerge as the world's biggest market for two-wheelers continued its growth trend in 2016. The massive government spending in rural programmes and large road-construction projects is leading to a pick-up in volumes in smaller towns and villages. The market in China has been on a decline over the past few years, perhaps due to the fast-paced growth in car sales there as well as the curbs on petrol two-wheelers in top cities. China instead recorded decreasing volumes in 2016, down by 12% compared to the previous year and ending the period with nearly 16.8 million units production. The China domestic two and three wheeler industry will continue to face rising labor costs, lower market demand, more stringent price competition between enterprises. Overall, the domestic part of the city's ban on two wheeler policy will limit the consumption of the domestic motorcycle industry, but the devaluation of the renminbi and the export tax

rebate rate of the motorcycle exports have played a positive impact, the motorcycle industry is entering a slow adjustment period. We forecast that China two and three wheeler market will keep a -3.87% CAGR decrease in 2016-2023F.

The worldwide market for ATVs+2/3 Wheeler is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.

There are 15 Chapters to deeply display the global ATVs+2/3 Wheeler market.

Chapter 1, to describe ATVs+2/3 Wheeler Introduction, product scope, market overview, market opportunities, market risk, market driving force;

Chapter 2, to analyze the top manufacturers of ATVs+2/3 Wheeler, with sales, revenue, and price of ATVs+2/3 Wheeler, in 2016 and 2017;

Chapter 3, to display the competitive situation among the top manufacturers, with sales, revenue and market share in 2016 and 2017;

Chapter 4, to show the global market by regions, with sales, revenue and market share of ATVs+2/3 Wheeler, for each region, from 2013 to 2018;

Chapter 5, 6, 7, 8 and 9, to analyze the market by countries, by type, by application and by manufacturers, with sales, revenue and market share by key countries in these regions;

Chapter 10 and 11, to show the market by type and application, with sales market share and growth rate by type, application, from 2013 to 2018;

Chapter 12, ATVs+2/3 Wheeler market forecast, by regions, type and application, with sales and revenue, from 2018 to 2023;

Chapter 13, 14 and 15, to describe ATVs+2/3 Wheeler sales channel, distributors, traders, dealers, Research Findings and Conclusion, appendix and data source
