SCOPE OF THE REPORT:

This report focuses on the Automated Guided Vehicle in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Automated guided vehicle, which are widely used for material handling in various industries such as automotive, manufacturing, food & beverage, aerospace, healthcare, logistics, retail, and others, have proved to be very useful in catering to the growing need for automation in industrial material handling.

Much of the fast growth in the industry grew out of the desire from companies to reduce operating costs and improve efficiency. During the past five years, industry operators rolled out new high technology products, such as automated pallet trucks that use laser target, gyroscopic, optical and magnetic navigation systems.
