In 2015, Europe is the largest consumer of Car Wash System and is expected to retain the higher growth rate during the next five years due to strong growth in downstream industry. North America, Europe and China have witnessed a major chunk of the production and consumption of Car Wash System in the world. Actually, that is why manufacturers have several plants, usually close to aimed demand market.

All manufactures in the world are committed to the improvement of product. These two years, some of Chinese manufactures can almost catch up with the world's leading technology too. Most technologies are developed by the manufacturers instead of importing from other companies.

The import and export business of this industry is not frequent. The main reason lies in that many international manufacturers expand their business through building factories or investments in targeted markets. Also, many major players have built up plants in developing countries, like China.

The worldwide market for Automatic Car Wash Machines is expected to grow at a CAGR of roughly 2.3% over the next five years, will reach 990 million US\$ in 2023, from 860 million US\$ in 2017, according to a new GIR (Global Info Research) study.
