SCOPE OF THE REPORT:

This report focuses on the Automatic Transmission (AT) in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. So far, the automatic transmission (AT) technology is relatively close, the core technology is mastered by some big vehicle company, the price occupies about 10% of the whole vehicle, the imported automatic transmission (AT)'s price is higher than China's price.

The vehicle which installs automatic transmission (AT) has higher fuel consumption than the vehicles which install manual transmission and the vehicle which installs automatic transmission (AT) are easier driving than the vehicles which installs manual transmission. So, the automatic transmission (AT) installed proportion is different in different country due to different countries' oil price and driving feeling. The US vehicle has about 95% installed proportion, the Japan vehicle has about 90% installed proportion, the EU has about less than 20% installed proportion, the China vehicle has about 45% installed proportion from about 35% to 45%.
