Abstracts

Canned fruits are favored by consumers in recent year due to that it is on par nutritionally with their fresh or frozen counterparts. For some produce, the nutrition in canned foods is even greater.

Fruits are sealed into air-tight cans or glass jars, thus preserving the original nutritional factors intact for more than 3 years. Most of the countries that import canned fruits do so because they are available throughout the year and not only during seasonal production. Also, they keep their fragrance and flavor for a long time.
