Abstracts

Coconut water is the clear liquid inside young green coconuts (fruits of the coconut palm). Coconut water has long been a popular drink in the tropical countries where it is available canned, or bottled.

SCOPE OF THE REPORT:

This report focuses on the Coconut Water in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

First, coconut water benefits and coconut water nutrition are numerous due to the amount of essential nutrients it contains, which include vitamins, minerals, phytonutrients, amino acids, antioxidants, enzymes and growth hormones; because coconuts grow near the sea, they have continual access to mineral-rich salt water supplies, which enables them to absorb the water through their root systems. This makes coconut water a rich source of major minerals, such as potassium, calcium and magnesium, in addition to the trace elements iodine, zinc, sulfur, selenium, sulfur, manganese, boron and molybdenum.

Second, the global coconut water market is fragmented with too many small players across various regions. China is the largest region of coconut water in the world in the past few years and it will keep the same position in the next few years. China markets took up about 69.54% the global market in 2015.

Third, the global production of coconut water will increase from 1138.32 Million L in 2011 to 2310.08 Million L in 2016 at an average annual growth rate of more than 15.00%. In the world wide, the top five manufacturers of coconut water are Coconut Palm Group, VITA COCO, Coca-Cola(Zico), Yeniu, Pepsico(ONE,Amacoco). And the

production of Coconut Palm Group occupied about 27.69% in 2015. Fourth, each of the coconut water manufacturers has its own mature sales networks. Through retail stores, their authorized distributors or their partners, those coconut water manufacturers keep keen on expanding their coconut water sales. To achieve better sales businesses, coconut water manufacturers usually invest on their marketing channel infrastructure every year.

The worldwide market for Coconut Water is expected to grow at a CAGR of roughly 14.4% over the next five years, will reach 13800 million US\$ in 2023, from 6150 million US\$ in 2017, according to a new GIR (Global Info Research) study.
